

SMALL ENGINE MAINTENANCE AND DIAGNOSTICS COURSE

What: This mini-course is designed to help participants become comfortable with safely maintaining 2-stroke and 4-stroke small engines, such as snowmobiles, 4-wheelers, outboard motors and chainsaws. Participants will also learn about basic shop safety, simple diagnostics and trouble-shooting start-up and operational problems.
A Certificate of Completion will be issued at the end of the course.

Cost is **FREE** to STEP Participants.

Where: ATELP Shop at the Como Lake facility **ONLY 10 SEATS AVAILABLE**

When: 6 days, 9am-5pm, January 23-26, and January 30-31, 2017

Instructor: Dave Parisien
